Indosuez Wealth Management celebrates 25 years of expertise in private markets

Indosuez Wealth Management, the wealth management arm of the Crédit Agricole Group, celebrates the 25th anniversary of Tiera Capital, its private markets platform.

Over the years, Indosuez Wealth Management has established itself as a leading player in private markets through its Tiera Capital platform, which has grown significantly since its launch in 2001 and now has close to 13 billion euros in assets under management. The platform is supported by an international team of 70 experts across nine locations in Europe and Asia, serving a discerning client base.

Indosuez: a pioneer in private markets

Having recognised the potential of private markets at an early stage, Indosuez has been supporting entrepreneurs and private investors with their allocation strategies for more than two decades. As early as 2001, the bank enabled its wealthy clients to access this asset class in line with institutional selection standards, thereby helping to establish private markets as a lasting core component of their portfolios.

Tiera Capital's offering has gradually expanded to cover the full private markets spectrum: private equity, private debt, infrastructure, co-investments and secondary transactions. At the same time, its ecosystem has grown considerably, with more than 120 partner asset management companies across Europe, the United States and Asia-Pacific.

Over the past 25 years, Tiera Capital has supported more than 4,000 private companies through over 600 funds, made 110 direct investments and participated in 120 secondary transactions.

A tailored approach serving clients

Indosuez's private markets expertise rests on two fundamental pillars: a tailored approach combining local proximity with a global perspective, and the strength of the Crédit Agricole group, the world's ninth-largest bank. This combination enables us to meet the expectations of all our wealthy clients, family offices and professional investors.

The sustained growth in assets under management—with an average increase of 15% per year over two decades—reflects clients' enduring trust. This loyalty is founded on transparent information, rigorous investment processes, a proven track record and the enhanced digitalisation of tools and client journeys.

Looking ahead: innovating and broadening access to private markets

Building on this expertise, Indosuez continues to pursue its ambition of growing and broadening access to private markets for all its clients, while maintaining the standards of excellence and exclusivity on which its reputation is built. The bank has set a target of 18 billion euros in private markets assets under management by 2028.

"This anniversary is not simply an opportunity to look back. The ambition is clear: to make Tiera Capital the leading global platform for all client segments, from private wealth clients to the largest professional investors," says Nicolas Renault, Global Head of Private Markets – Indosuez Wealth Management.
